

P SERIES

Monopods – lightweight, compact, comfortable

- Compact monopods – large working height, short pack size
- Reversible 1/4" & 3/8" screw for tripod heads and camera
- Foam rubber leg wrap, wrist strap, belt clip or carabiner

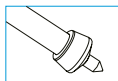

Best quality, highest processing.

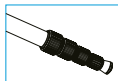

Foam rubber leg wrap protects against high and low temperatures.

Detachable head support plate with mounting **screw** quickly switches from 1/4" to 3/8".

The monopods are stable and will not slip on **rubber feet**. The monopods also have twist-out **metal spikes**, intended for use on soft and uneven surfaces.

Sealed **twist locks** with rubber for grip. Just half a turn and the legs will start to descend. The locks can be disassembled for maintenance.

- Carbon
- Aluminium

simply compact.
